

Request for the addition of a bookmobile stop at a school

Please describe your school (location, demographics, etc.) and why a bookmobile stop at your school would further the bookmobile mission of providing library services where there are geographic, transportation, economic or other barriers to using the main library. Please note that all bookmobile stops, including those at schools, are open to the public.

We the undersigned support a bookmobile stop at our school and are committed to integrating bookmobile visits into our school day. We will supervise the students when using the bookmobile and the school and we will provide the library with class rosters so that library cards may be completed in advance of the first bookmobile stop at our school. We would specifically recommend the bookmobile to stop at:

Street address (as it should appear on the schedule)

City in Olmsted County
